## Who We Are (H2)

**Eyebrow:** WHO WE ARE **H2:** We Develop Pad Sites Where Growth Is Happening Next

Israni Holdings identifies, develops, and leases high-visibility commercial real estate for the operators shaping how Texas eats, works, and grows. Our current portfolio, operated under our TX Flex Space brand, spans strategic pad sites in Cleveland, Texas and Abilene, Texas — including sites positioned along the emerging Abilene / Stargate AI data center corridor, one of the fastest-growing infrastructure investment zones in the state.

We work directly with QSR, drive-thru, and fast-casual brands to secure sites that combine traffic, visibility, and long-term growth potential — backed by a hands-on leadership team that moves as quickly as the brands we serve.

## Why Choose Us (H2)

**Eyebrow:** WHY CHOOSE US **H2:** Sites Selected for What Comes Next

1. **High-Visibility Locations** — Every pad site is chosen for traffic count, access, and long-term area growth, not just what's available today.

2. **Fast-Moving Leadership** — Direct decision-making means faster answers, faster lease terms, and faster time to open.
3. **Growth-Corridor Positioning** — Our Abilene sites sit at the edge of one of Texas's most significant infrastructure investments: the Stargate AI data center corridor.
4. **Built for QSR & Drive-Thru Operations** — Site layouts and access designed with drive-thru throughput and operational efficiency in mind.
5. **Transparent Partnership** — Clear terms, responsive communication, and a team that treats every brand relationship as long-term.
6. **Local Market Knowledge** — Deep familiarity with Cleveland and Abilene's development patterns, permitting landscape, and demographic trends.

### Testimonials (placeholder structure)

■ "[Client quote — TBD]" [Name], [Title/Company]

*(Repeat x2-3. Swap in real tenant/broker quotes once available.)*

### Opportunity (H2)

**Eyebrow: THE OPPORTUNITY H2:** Get Ahead of Abilene's Next Growth Wave

The Stargate AI data center development is reshaping the Abilene market — bringing jobs, traffic, and demand for food, retail, and service brands nearby. Israni Holdings' Abilene pad site is positioned to capture that growth early, before the surrounding market catches up.

---

## PAGE 2: ABOUT US

**URL:** </about-us/> **Title Tag:** About Israni Holdings | Texas Pad Site & Flex Space

**Developer Meta Description:** Meet Israni Holdings — the team behind TX Flex Space, developing pad sites and flex space for QSR brands across Cleveland and Abilene, Texas.

**Primary keywords:** Israni Holdings, Texas commercial real estate developer, TX Flex

Space, pad site developer Texas **H1: Building the Sites Texas's Fastest-Growing Brands Need Next**

## **Our Story (H2)**

Israni Holdings was founded on a simple premise: the brands driving Texas's growth need real estate partners who can move as fast as they do. **[Founding year — TBD]**, we began developing and leasing pad sites in markets positioned for long-term commercial growth — starting with Cleveland, Texas, and expanding into Abilene, Texas, as new infrastructure investment reshaped the region.

Today, our portfolio is anchored by two priorities: securing land in locations with genuine long-term upside, and giving QSR, drive-thru, and fast-casual operators a partner who understands their operational needs — from drive-thru stacking and access points to visibility and traffic counts.

## **TX Flex Space (H2)**

TX Flex Space is Israni Holdings' commercial real estate brand — the name behind our pad site development and leasing work in Cleveland and Abilene, Texas. It's where we bring our site selection, development, and tenant partnership work together under one roof for the brands we serve.

**Internal link:** [Explore TX Flex Space Properties & Services](#)

## **Other Israni Holdings Ventures (H2)**

Beyond TX Flex Space, Israni Holdings is also behind:

- **[Business name — TBD] — [one-line description — TBD]**
- **[Business name — TBD] — [one-line description — TBD]**

*(Send over the names and a one-line description of each and I'll drop them straight in — currently placeholders.)*

## **Our Vision (H2)**

**[Vision statement — TBD. Suggested direction: "To be the commercial real estate partner of choice in Texas's next generation of growth corridors — building sites that anticipate where demand is heading, not just where it already is."]**

## **Our Mission (H2)**

Our mission is to identify and develop commercial land in the corridors where Texas is growing next — and to pair those sites with the QSR, drive-thru, and fast-casual brands

ready to build there. We measure success not just in leases signed, but in long-term tenant relationships and sites that perform for decades.

#### What guides us:

- **Move at the speed of opportunity.** Growth corridors don't wait, and neither do we.
- **Build for the operator, not just the site plan.** Every location decision considers how a tenant will actually run their business day to day.
- **Play the long game.** We develop with a multi-decade view of a market's trajectory, not a single lease cycle.

#### Leadership (H2)

**Hitesh Israni — CEO** Hitesh leads Israni Holdings' site selection, tenant outreach, and market strategy across the company's Texas portfolio. [Bio detail — background, years of experience, prior ventures — TBD]

**Manisha Israni — Chairwoman** Manisha provides strategic oversight and leadership direction across Israni Holdings' portfolio of businesses. [Bio detail — background, focus areas — TBD]

#### Where We Operate (H2)

- **Cleveland, TX** — [1-2 sentence market description — proximity to Houston, growth drivers — TBD]
- **Abilene, TX** — Positioned along the emerging Stargate AI data center corridor, one of the most significant infrastructure investments in West Texas, driving new jobs, traffic, and demand for nearby retail and food service.

## PAGE 3: OUR SERVICES (includes Properties)

URL: </our-services/> Title Tag: Our Services & Properties | Israni Holdings / TX Flex

Space **Meta Description:** Pad site development, tenant leasing, and available properties in Cleveland, TX and Abilene, TX from Israni Holdings / TX Flex Space. **Primary**

**keywords:** pad site development services, commercial real estate leasing Texas, pad sites for lease Texas, Cleveland TX commercial land, Abilene TX commercial land **H1:**

Services & Properties

## **Pad Site Development (H2)**

We identify, acquire, and develop commercial pad sites in high-growth Texas corridors — evaluating each location for traffic, access, visibility, and long-term area growth before committing capital.

## **Tenant Partnerships & Leasing (H2)**

We work directly with QSR, drive-thru, and fast-casual brands from initial site inquiry through lease execution, offering direct, responsive communication throughout the process.

## **Site Planning for QSR & Drive-Thru Operations (H2)**

Our sites are evaluated and, where possible, designed with drive-thru stacking, ingress/egress, and operational throughput in mind — because a site that works on paper needs to work in daily operation too.

## **Market & Growth-Corridor Research (H2)**

Before developing in a new market, we study infrastructure investment, demographic trends, and growth drivers — like the Stargate AI data center corridor in Abilene — to identify where demand is heading next.

---

## **Available Properties (H2)**

**Eyebrow: WHAT WE BUILD H2:** Current Pad Sites for Lease

### **Cleveland TX Pad Site**

- Location: Cleveland, TX
- Size: [TBD] SQFT
- Highlights: [Nearest highway/intersection, traffic count, zoning — TBD]
- Best for: QSR, drive-thru, fast-casual
- Why Cleveland, TX: [2-3 sentences on Cleveland's growth trajectory, proximity to Houston metro, residential/commercial development trends — TBD]

### **Abilene TX Pad Site**

- Location: Abilene, TX
- Size: [TBD] SQFT
- Highlights: Positioned near the Stargate AI data center corridor; growing daytime population and traffic

- Best for: QSR, drive-thru, retail, service
- Why Abilene, TX: The Stargate AI data center project is one of the largest infrastructure investments in West Texas, expected to bring significant construction activity, permanent jobs, and daytime population growth to the area — creating early demand for food service and retail well ahead of broader market recognition.

Site Details Table (repeat per property)

| Detail        | Cleveland TX | Abilene TX |
|---------------|--------------|------------|
| Size          | [TBD]        | [TBD]      |
| Zoning        | [TBD]        | [TBD]      |
| Traffic Count | [TBD]        | [TBD]      |
| Access        | [TBD]        | [TBD]      |
| Lease Type    | [TBD]        | [TBD]      |

## PAGE 4: BLOG (Listing)

URL: </blog/> Title Tag: Blog | Texas Commercial Real Estate Insights | Israni Holdings  
 Meta Description: Insights on pad site development, QSR real estate, and growth corridors in Cleveland and Abilene, Texas from Israni Holdings. Primary keywords: Texas commercial real estate blog, QSR site selection insights H1: Insights from Israni Holdings

Intro paragraph: Updates and insights on pad site development, tenant strategy, and the Texas growth corridors we're building in.

### Blog Post 1

URL: </blog/abilene-stargate-ai-data-center-real-estate/> Title Tag: What Abilene's Stargate AI Data Center Means for Local Real Estate Meta Description: How the Stargate AI data center project is reshaping Abilene, TX real estate — and what it means for QSR and retail brands eyeing the market early. Primary keywords: Abilene AI data

center real estate, Stargate Abilene Texas, Abilene TX commercial real estate growth **H1:** What Abilene's Stargate AI Data Center Means for Local Real Estate

**Suggested structure (repurpose from your existing narrative-driven SEO content on this topic, no brand names unless requested):**

1. Intro — set the scene: a mid-size West Texas city, a data center project measured in billions, and what that means on the ground.
2. H2: The Scale of the Investment — construction jobs, permanent operational jobs, timeline.
3. H2: What Happens Around a Project Like This — historical pattern of food, retail, and service demand following large-scale infrastructure and industrial projects.
4. H2: Why Timing Matters for Site Selection — the case for securing land before the surrounding market fully prices in the growth.
5. H2: Where Israni Holdings Fits — brief, natural mention of the Abilene pad site.
6. CTA: View the Abilene TX Pad Site → </our-services/#abilene>

## Blog Post 2

**URL:** </blog/qsr-brands-cleveland-tx/> **Title Tag:** Why QSR Brands Are Looking at Cleveland, TX **Meta Description:** Cleveland, TX is emerging as a target market for QSR and drive-thru brands. Here's what's driving the interest. **Primary keywords:** QSR Cleveland TX, drive-thru site Cleveland Texas, commercial real estate Cleveland TX **H1:** Why QSR Brands Are Looking at Cleveland, TX

**Suggested structure:**

1. Intro — why a market like Cleveland, TX ends up on a QSR site-selection list.
2. H2: Growth Signals — population trends, proximity to Houston, residential development.
3. H2: What Brands Are Prioritizing in 2026 — drive-thru throughput, visibility, traffic count.
4. H2: The Cleveland Opportunity — natural tie-in to the Israni Holdings pad site.
5. CTA: View the Cleveland TX Pad Site → </our-services/#cleveland>

*(Let me know if you'd like either post written out in full — these are outlines/structure only for now.)*

## SEO NOTES FOR IMPLEMENTATION

- **Image alt text:** Every property, hero, and leadership photo should carry descriptive alt text with location/keyword (e.g., "Cleveland TX pad site aerial view" rather than "image-1.jpg").
- **Internal linking:** The Services/Properties page, the Abilene blog post, and the homepage opportunity section should all cross-link to reinforce the Abilene/Stargate topic cluster.
- **Schema markup to add during build:** LocalBusiness / RealEstateAgent schema for the Contact page; Organization schema on About Us with Hitesh and Manisha as leadership entities.
- **URL structure:** Keep slugs flat and keyword-based (e.g., `/our-services/#abilene`, `/blog/abilene-stargate-ai-data-center-real-estate/`).
- **Title tag / meta description length:** Keep title tags under 60 characters and meta descriptions under 160 — a couple above are close to the limit and worth trimming once real data is finalized.
